#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The finality of office action mailed on 3/8/06 has been withdrawn.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeCamppli (5,571,127) in view of Dambal et al. (6,757,977). DeCamppli discloses a surgical disposable scalpel comprising a sharp blade 50, a blade-fixing member 40 fixed to the rear end of the blade 50, and a handle 20 enclosing the blade-fixing member 40. DeCamppli teaches a surgical scalpel as claimed, including a first fixing projection 27 extending from the top surface of the blade-fixing member 40, except for a second fixing projection. However, Dambal discloses a surgical scalpel as shown in figures 1-6 comprising a blade-fixing member as shown in figure 3 having a first fixing projection 32 interlocked with the first fixing groove 22 and a second fixing projection 35 interlocked with the second fixing groove 24. It would have been obvious to one having an ordinary skill in the art at the time the invention was made to further modify DeCamppli by having a second fixing projection interlocked with the second fixing groove in view of Dambal to provide an interlocking means when the blade-fixing member is retracted into the blade enclosing member to ensure permanent locking and complete safety of the operator.

Regarding claim 3, DeCampi discloses the main body 20 defining a cavity for receiving the blade-fixing member 40, separation-preventing plate (21a,21b) and reciprocating aid slot 28.

Regarding claims 4-6, same as to claims 2-3 above.

***Response to the Applicant Arguments***

3. Applicant's arguments filed on 5/17/06 have been fully considered but they are not persuasive in view of the new ground of rejection, the Dambal et al. reference.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles H. Sam whose telephone number is (571) 272-4703. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anhtuan T. Nguyen can be reached on (571) 272-4963. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
